LIFEFORTE CELEBRATES BLACK HISTORY MONTH UK 2023

featuring **Dr Itunuoluwa Johnson-Sogbetun**

The theme celebrates and showcases the outstanding achievements of black women by focusing on honouring matriarchs of movements and celebrating sisters who are currently shaping history, inspiring change and building communities.

Our alumna, **Dr Itunuoluwa Johnson-Sogbetun**, is one of such sister. We are delighted to salute Dr Sho, a first fruit of the Lifeforte vision - To build the future by developing godly, global visionaries and solution providers.

We applaud Dr Sho's laudable initiative 'HEAL' and are proud of this invaluable contribution to use education as a key tool in eradicating language barriers, culture barriers and the lack of adequate healthcare for black people as well as highlighting how black people can advocate for themselves.

Take a look.

NIGERIAN INDEPENDENCE DAY

OUR NATIONAL IDENTITY

PROUDLY NIGERIAN | MADE IN NIGERIA | ARISE SHINE NIGERIA

Monjola Aregbesola
In Nigeria we have the resources, we have the intellect, we have the manpower to truly make Nigeria great and Africa a better place

John Fortune
We should have the mindset: I am going to stay here; I am going to get the work done until Nigeria eventually develops into the country we all want it to be.

THE GREAT DEBATE

ARTIFICIAL INTELLIGENCE VS HUMAN INTELLIGENCE: A MERIT OR DEMERIT? WHAT DO YOU THINK?

DANIEL HOUSE
AKINMIDE FAWIBE & SEYIFUNMI KOLA-ADELEKE

We should use A.I as an opportunity to create and innovate new cultures from mundane life to doldrums space.
A.I is the child of H.I but can never replace it. The same way every child is necessary in every home, is the same way A.I is necessary for H.I because it is H.I's pivot."

RUTH HOUSE
JOHN FORTUNE AGADA & AYANFE IYUN

But why pick one? The heart and the brain work together to keep every individual alive. Likewise, H.I and A.I can work together for the advancement of the human race.

A.I + H.I = recipe for a better tomorrow.

SARAH HOUSE
JEDIDIAH BEECROFT & ABIOLA FAYOTUNMI

Artificial intelligence limits our abilities
to think out of the box
to peak over the fence.
The fence of facts and known
when out there is a world of mystery
and all of it, thrown!
"Why abandon curiosity?"

PAUL HOUSE
JOHN FAMILUSI & UCHE OKEUDO

AI is a faithful friend!
In medicine, a healer with no end.
See the artist, with brushes in hand
And AI by their side, they take a stand.
AI renews the hope of our dreams
And gives us opportunities like streams.
